

RUGAMBA CEDRIC

Enterprise Architect | Cloud Solution Architect

rugambacedric@gmail.com +250788863783 Kigali, Rwanda <https://www.linkedin.com/in/cedric-rugamba/>

PROFESSIONAL SUMMARY

Enterprise Architecture, Cloud Solutions, and Digital Transformation leader with nearly 10 years of experience across banking technology, IT infrastructure, cloud modernization, digital channel operations, and operational resilience. Experienced in leading architecture initiatives, supporting critical banking platforms, managing incident response, driving disaster recovery readiness, and aligning technology solutions with business and regulatory objectives.

SKILLS

Enterprise Architecture • Solution Architecture • Cloud Strategy and Migration • IT Infrastructure and Operations • Disaster Recovery Planning and Testing • IT Governance and Compliance • Systems Design • Stakeholder Engagement • Digital Transformation Advisory

WORK EXPERIENCE

Digital Channels Support Manager

Feb 2026 - Present

Bank of Kigali

- Managing digital channels support operations to ensure stability, availability, and service continuity across key banking platforms.
- Leading incident response and service restoration for digital banking, agency banking, USSD, wallet, and payment integration issues.
- Coordinating deployments, rollbacks, and post-deployment validations for digital channels and integration services.
- Monitoring transaction flows and service performance to identify failures, delays, integration errors, and recurring operational risks.
- Implementing operational controls for critical integrations, including credential rotation, access validation, and maintenance activities.
- Preparing RCA reports, corrective actions, and preventive measures to improve service reliability and operational governance.

Manager, Enterprise Architecture and Cloud Solutions

Feb 2024 - Feb 2026

Bank of Kigali

- Leading enterprise architecture and cloud integration efforts to enhance cost-efficiency and resilience in line with the bank's strategic and IT goals.
- Driving the evaluation and incorporation of innovative, economically viable technologies to encourage continuous improvement and sustain a competitive advantage.
- Providing architectural guidance for new systems and developing integration strategies to fortify the bank's infrastructure robustness and resilience.
- Executing Business Continuity Plan (BCP) and Disaster Recovery (DR) initiatives to bolster organizational resilience and safeguard critical operations.
- Partnering with IT departments to modernize outdated processes and systems, leading to improved efficiency and significant cost reductions throughout the organization.

Cloud Solution Architect

Feb 2023 - Feb 2024

Bank of Kigali

- Developed and executed a cloud adoption strategy for the organization.
- Led the implementation of innovative cloud integration solutions.
- Oversaw cloud infrastructure operations to ensure reliable service delivery.
- Forecasted and managed cloud expenses effectively.
- Engaged internal and external stakeholders to understand their requirements.
- Offered expert advice to development teams on infrastructure needs and integration architecture.

T24 Senior Database Administrator

Feb 2022 - Feb 2023

Bank of Kigali

- Managed and optimized Core Banking database performance, ensuring seamless access for end-users.
- Devised an automated backup script, decreasing backup time by 20% and saving the company 2 hours per week.
- Coordinated the upgrade of the Core Banking database, ensuring a smooth transition with minimal interruption to banking operations.
- Led the creation and assessment of software maintenance procedures, boosting system uptime.
- Promptly identified and resolved database issues, implementing strategies to reduce downtime.

Senior Datacenter Administrator

Bank of Kigali

- Led the technical implementation of the Dynamics 365 Platform upgrade as Technical Lead.
- Developed and supervised an automated Payslip delivery system, improving efficiency by 80%.
- Directed the installation, configuration, and deployment of the Oracle EBS Payroll System.
- Handled the deployment of recent patches, approved software, and updates through SCCM to ensure system currency, security, and compliance.
- Assessed and strengthened the stability, security, and scalability of installed Windows systems.
- Maintained server architecture security and performed system backups to ensure business continuity and data protection.

Feb 2021 - Feb 2022

Datacenter Administrator

Bank of Kigali

- Managed staff emails, assigned appropriate licenses, and established security policies to ensure data protection and compliance.
- Created new staff accounts, disabled accounts of departing staff, and managed user access rights using Security Groups to ensure secure access to resources.
- Created, installed, patched, and upgraded Windows systems, both physical and virtual servers.
- Provided technical support to staff and back-end system users to ensure smooth operation and quick resolution of issues.
- Troubleshoot system and server errors and implemented solutions to resolve problems and minimize downtime.
- Monitored system performance to identify and address potential problems before they occur.

Sep 2018 - Feb 2021

Junior Software Developer

Netmarks Technologies

- Developed an in-house ticketing software that improved the company's customer service operations.
- Optimized the company's website for better user experience, resulting in increased website traffic and conversions.

Jul 2017 - Nov 2017

KEY ACHIEVEMENTS

- Played a key role in creating the Enterprise Architecture (EA) Framework, which is now utilized for comprehensive systems planning and alignment throughout the organization (07/2024 - Present).
- Achieved a 50% reduction in overall cloud consumption, leading to significant savings in infrastructure costs (01/2024 - 12/2024).
- Contributed to the formulation of a cloud adoption strategy aimed at reducing IT operational costs by 30%.
- Led the development of an automated backup solution for the core banking system, decreasing backup time by one hour (02/2022 - 02/2022).
